

## New staff in the School of Mathematics & Statistics 2018 – 19

<p style="text-align: center;"><b>NO IMAGE AVAILABLE</b></p>	<p><b>Dr Craig Alexander</b> <i>Research Assistant in Statistics, working with Dr Craig Anderson</i></p> <p>Craig will join the School as a Research Assistant on 7<sup>th</sup> January 2019.</p>
	<p><b>Dr Christian Bonicke</b> <i>Temporary Lecturer in Mathematics</i></p> <p>Christian grew up in Germany, where he also obtained his PhD in Mathematics from the University of Muenster in 2018. His primary research interest revolves around operator algebras, with an emphasis on C*-algebras associated to dynamical systems. During his spare time, Christian enjoys climbing, hiking, and modern board games.</p>
	<p><b>Dr Florian Eisele</b> <i>Temporary Lecturer in Mathematics, January 2019</i></p> <p>Florian obtained his PhD in Mathematics from RWTH Aachen University in 2012, then worked as a postdoctoral researcher at the Free University of Brussels and later at City, University of London. Florian's research interests include the modular and integral representation theory of finite groups as well as the representation theory of finite-dimensional algebras.</p>
<p style="text-align: center;"><b>NO IMAGE AVAILABLE</b></p>	<p><b>Dr Sam Evington</b> <i>Research Assistant in Mathematics, working with Prof Stuart White</i></p> <p>Sam joined the School as a Research Assistant on 1<sup>st</sup> November 2018.</p>
